

RCE Rail Construction Equipment Co.

Scrap Cart

RCE builds service carts to work with your on track equipment. They are designed to handle all types of material, from heavy loads of reclaimed scrap to Ties. They are built to meet your specific specifications.

The Scrap cart shown here is one example of what can be supplied.

Our standard design includes just some of the following features

Safety Bumpers & Derail Guards

Removable Sides & End Bulkheads

Hydraulic or Air Actuated Disc Brakes

Heavy Duty Latches

Recessed Lift Rings In the Bed Floor
